Lights! Camera! Action! in Alberta Like Never Before

Shooting the HBO series *The Last of Us* unequivocally changed the film industry in Alberta. But was it just a lucky blip or do we actually have the infrastructure to sustain this sector and grow it from a $550-million industry to one worth $1 billion? Thoughts and takes from Mayor Jyoti Gondek, who recently went to L.A. to meet studio executives, to local film producers and one of the key players behind the ever-expanding Rocky Mountain Film Studios.

Artists Behind the Arch Awards

Not all artists spent the pandemic making banana bread. Three illustrators of our annual Arch award recipients reflect on their processes and creativity and how the last two years have impacted them and their work.

And yes, you can hire them

Ordinary Deaths is Anything But

The new book by Samuel LeBaron, PhD, MD’89, is an introspective look at death and loss. Writing the book was a 15-year process made all the more poignant by the fact that LeBaron is, himself, dying. Two and a half years ago, LeBaron was diagnosed with stage-4 lung cancer.

**Students and Alumni Fight Food Insecurity this Halloween**

Between Aug. 1 and Sept. 15, the Student Union Food Bank saw a 46% increase in requests for food hampers over the same period in 2018 according to a recent CBC article. The same article reports that international students make up more than 78% of those requests, adding to the distress experienced by that specific population of students on our campus. You can help by donating a non-perishable food item which, in turn, will help student and Alumni Trick-or-Eat volunteers to beat last year’s 750kg donation amount.

Cumming School of Medicine Alumni Gift Launches New Fellowship to Grow
Canadian Neurogenetics Expertise

For medical geneticist Dr. Xiao-Ru Yang, BSc ’13, MD’16, few things are more
rewarding than helping a patient understand what caused their mysterious,
unexplained illness — answers those patients often seek for many years.

Thanks to a new University of Calgary fellowship generously supported by Alberta’s
only neurogeneticist, Dr. Oksana Suchowersky, MD ’78, and her partner, the board
chair of the Alberta Cancer Foundation, Dr. Chris Eagle, BSc ’73, MD ’77, Yang is
poised to help sleuth out new diseases and improve health while adding Canadian
capacity in the rapidly advancing field of neurogenetics.
